Maths 2094: Research Project # 4  
Fall 2010

Due Date: Noon on Tuesday, December 7.

Points: This project is out of 5 points.

Instructions: Please fill out the following survey and return to Dr. Miceli no later than noon on December 7th, 2010. For each of the following statements, give the answer you feel best applies to you. To get full credit on this project, you must give explanation in all of the questions where you are asked to do so.

Name: _______________________

1. “I have taken an upper division math course other than Intro to Abstract (3326) and Linear Algebra (3323).” If your answer is ”Yes”, list the courses you have taken.

   Yes  No

2. “This semester I spoke with Barbara MacAlpine, the Math Department Liaison from the Coates Library.”

   Yes  No

3. “Prior to taking this class, I had been to the Mathematics Section (QA) of the Coates Library.”

   Yes  No

4. “I learned something about proper citation of sources in this class.” If your answer is “Yes,” please say what you learned, and if your answer is “No,” then say why not.

   Yes  No
5. “Prior to taking this class I believed that the Internet was not a good source of academic information, mathematical or otherwise.” Explain.

Yes  No  Depends

6. “After taking this class I believe that the Internet is a good source of academic information as it pertains to Mathematics.” Explain.

Yes  No  Depends

7. “Prior to taking this class I did not know what journal resources were available in the Coates Library.”

True  False

8. “After taking this class I feel like I have a better understanding as to what journal resources are available in the Coates Library.” Explain.

True  False
9. “From the 3 Research projects I learned something about Mathematics that I did not know before taking this class.” Explain.

   True               False

10. Complete the statement: “One thing I liked about the research projects was...”

11. Complete the statement: “One thing I would change about the research projects is...”
