

PROPOSAL TO CREATE, REVISE OR DELETE A COURSE

Department **Math**

(Proposed Course Number) **2324**

Proposed Course Title **Numerical Calculus**

Nature of Proposed Change	
New Course	<input type="checkbox"/>
Revised Course	<input type="checkbox"/>
Deleted Course	<input type="checkbox"/>
Number Change	<input type="checkbox"/>
Adding Prerequisites	<input checked="" type="checkbox"/>
Description Change	<input type="checkbox"/>
Title Change	<input type="checkbox"/>
Editorial Change	<input type="checkbox"/>
(Old Number _____)	

Common Curriculum Status	
Presently in Common Curriculum	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Now Proposed for Common Curriculum	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
If yes, which Understanding or Skill	

Estimated number of seats added or deleted from the Understanding _____	

Rationale (Explain why the change is being proposed, its relation, if any, to the major or minor program, and what curricular improvements will result.):

Calculus I (MATH 1311) and Calculus A (MATH 1307) cover the same core material needed for Numerical Calculus (MATH 2324).

Curricular Impact Statement (What curricular trade-offs will result if this course is approved?):

n/a

Teaching Resources (Explain any impact on personnel, faculty contact hours, Common Curriculum and other course offerings, and involvement in First Year Seminar.):

n/a

Proposed Bulletin Description:

Introduction to the numerical algorithms fundamental to scientific computer work. Elementary error analysis, interpolation, quadrature, linear systems of equations, and introduction to the numerical solutions of ordinary differential equations. (Also listed as CSCI 2324.) Spring.

Prerequisite: MATH 1307 or 1311 or equivalent and knowledge of computer programming.

Present Bulletin Title and Description:

Introduction to the numerical algorithms fundamental to scientific computer work. Elementary error analysis, interpolation, quadrature, linear systems of equations, and introduction to the numerical solutions of ordinary differential equations. (Also listed as CSCI 2324.) Spring.

Prerequisite: MATH 1311 and knowledge of computer programming.

Instructor(s) <u>Departmental</u>	IS THIS COURSE
Semester course will first be offered <u>Spring 2009</u>	- cross-listed with another department? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Effective date of change _____	If so, which one? _____
Frequency of offering <u>Every spring.</u>	- a prerequisite for another course? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
Is a similar course offered in another department? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	If so, which one(s)? _____
If yes, attach explanation.	- part of an interdisciplinary program? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
If this course will demand additional library resources, equipment, renovation and/or remodeling, computer facilities and time, or have a significant impact on workload or budget, have you arranged for these resources? Yes <input type="checkbox"/> No <input type="checkbox"/> None required <input checked="" type="checkbox"/>	If so, which one(s)? _____
Are there needs for technological resources not currently available on campus? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	- a prerequisite or specific requirement for a major or minor in another department or program? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
	If so, which one(s)? _____
	If any of the above responses is "Yes", have you contacted the appropriate department(s)? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>
	Can a student enter this course with permission of the instructor without the prerequisite(s)? Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>

ROUTING

Please list the appropriate departments that have reviewed and endorsed this proposal: _____

Date: _____

AA (April 2003)
